- Consumables;
- Office space for the ERA Chair research team;
- Access to existing state-of-the-art instrumentation;
- Extra bonus package depending on negotiations.

UNIVERSITY OF ZILINA

University has taken a significant place in the Slovak educational space not only with the number of its students, but also with its scientific and foreign activities based on cooperation with domestic and foreign companies and institutions;

In terms of professional profile, the university is unique in Slovakia as it has a long tradition of providing education in the fields of transport and information and communication technologies;

The University research teams with about 800 researchers solve problems of basic and applied research on the national and international levels;

In the field of science and technology, individual departments of the University have been involved in solving of many research projects financially supported by public sources through national grant schemes, collaboration agreements with national and international industry, SMEs, international grants of EU Framework Programs etc.

ZILINA

Important centre of the northwest Slovakia;

It is one of the largest cities in the Slovak Republic with almost 90,000 inhabitants;

Its importance is determined by the strategic position and good transport accessibility;

It is a seat of administration of the Zilina self-governing region;

There are a lot of industry, ICT and construction companies;

Zilina has seen a rapid growth in recent years, after the South Korean car producer KIA Motors Slovakia opened a major car plant;

The town is not only a centre of the automotive industry, but together with the Upper Váh (Horné Považie) Region is an interesting tourist destination;

Zilina has a rich past, dynamic present and all conditions for all-round development in the future.
