

Staff Week - English as a Medium of Instruction Brest — 3-5 June 2025

General information

Staff Week Title	English as a Medium of Instruction
Abstract: (a few lines describing the staff week that SEA-EU partners can use for dissemination)	As teaching more courses in English is seen as a way to develop student mobility, lecturers who usually teach in their country's language are considering teaching their subject in English to both national and international students. The aim of this staff week is to help participants understand the needs of the students who are taught in a different language and acquire tools to meet them.
